Présentation

Activité détaillée

Blanc Aero Technologies, part of LISI AEROSPACE Group, is located in Saint-Brieuc (Britanny France). Our plant manufactures industrial fasteners for highly demanding applications :

- Aerospace
- Nuclear, Defense
- Motorsport (Formula 1, WRC, Endurance programs, Nascar ...)
- Prestige/Sport cars

All bolts, screws, studs, nuts and special fasteners are made to customer drawings.

Processes : hot and cold stamping, forging, thread rolling, machining, heat and surface treatment

Materials : steel alloys, titanium, stainless steel , Nickel-base alloys up to 2000 MPa (290 KSI)

Quality ISO 9001, EN9100, ISO14001, NDT Nadcap/ inspection to international standards.

Our technical department supports our customers with material selection, assembly specifications, weight saving and your specific requirements.
